About us

ARC International Fertility & Research Centre is a leading fertility care provider dedicated to helping couples achieve their dream of parenthood. Since 2004, ARC has supported over 55,000 couples with advanced assisted reproductive treatments delivered with compassion and personalised care. With more than 30 centres across India and an international presence, ARC combines world-class technology, experienced specialists, and affordable treatment options to make fertility care accessible to diverse families. The clinic emphasises empathy, ethical service, and continuous support throughout the fertility journey, ensuring each patient receives respectful, holistic care tailored to their unique needs and hopes for a child.
